

HORNETSECURITY

## Hornetsecurity 365 Total Backup

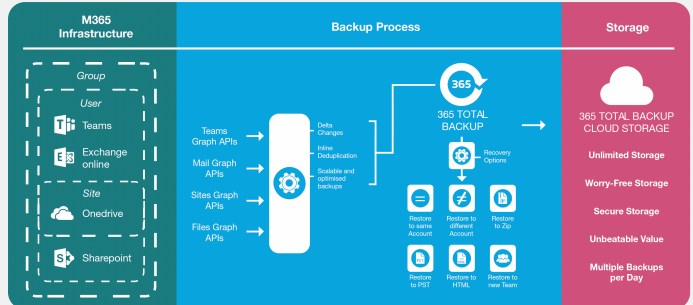

### Key Facts:

- Back up and restore all Microsoft 365 data
- Automatic and hassle-free
- Easy configuration and multi-tenant management

### Why do I need a backup solution for my Microsoft 365 data?

Microsoft 365 is a communications system rather than a data protection product.

This means you must make sure you have a reliable, comprehensive backup and recovery solution in place. Hornetsecurity enables you to back up all your Microsoft 365 and Windows-based endpoints content with ease.

## redstor Cyber 365 Backup

### What Does redstor do?

- Back Up and Recovery • Cloud Data Archiving • Malware Detection
- Disaster Recovery • Microsoft 365 Backup • Google Workspace Backup

## SaaS Protection for Microsoft 365

### Microsoft 365 is Not Automatically Protected

Data backup in the cloud is proven to be just as important as traditional on-premise IT backup. So much so, Microsoft recommends a third-party solution to securely backup your cloud data to avoid any possible data loss risks.

### SaaS Protection Recovers

- **OneDrive:** All files and folders with file structure intact.
- **Contacts:** All contact information (excludes photos).
- **Calendar:** Events, attachments and calendars owned by users.
- **Mail:** All emails, attachments, notes, and folder structure.
- **Microsoft Teams:** Files, conversations, and meetings in public channels.
- **SharePoint:** All collections, Custom generic site lists, Folder structure, Document libraries and sets, Site assets, templates, and pages
